- "Rabbi" trusts • pertinent current legal decisions • own your own bank

Every germane question will be answered, such as:

- Can you make big profits outside the United States? • Which are the eight "safest" countries for banking? Which of those eight is best for you? • In your personal situation, what specific steps must you take to protect yourself against intrusion by the Internal Revenue Service? • If you have a high net worth or are an entrepreneur, which is better to protect your assets – setting up a trust or owning your own offshore bank?
- The Cayman Islands is a "no tax" jurisdiction: No income tax, no corporate tax, no inheritance tax, no capital transfer tax. How can you benefit from this?
